

## Best System for Warehouse Automation

### Godrej Efacec Automation & Robotics Limited

*Winner*

The SCMPro Best system for warehouse automation pays a tribute to warehouse storage, and provides an opportunity to have business achievements publicly recognized. Storage is an onerous task requiring multi-talented professionals from several links in a supply chain. The award honors firms with the right technology and engineering embedded into corporate culture. It has demonstrated smart application of science and technology, and integrated it into the corporate culture, in support of business goals and societal needs.

Godrej Efacec Automation & Robotics Ltd. has been the pioneer and leader in Automated Storage & Retrieval Systems in India since 1998 and we have done multiple projects for clients from varied industry segments like Pharma, Chemical, Agro-Chemical, Paints, Automotive, Paper, Textile, FMCG, Airports, Railways and Defence. Its innovative solutions have offered significant benefits to clients like Enhanced Storage Density; High Throughput; Automation Benefits; Safety and Validation.
